

Establish an authoritative record of Collateral agreements through common standards and a single workflow.

AGREEMENTMANAGER, an AcadiaSoft Hub application, enables fast, scalable negotiation and affirmation of legal and margin data via one cost effective interface.

It can be complex, time consuming and costly to negotiate, digitize, record, generate and govern Collateral Agreement data. **AGREEMENTMANAGER**, created by the industry, for the industry significantly reduces the time and effort required to accurately maintain an efficient repository of agreement data by introducing a standard shared workflow.

KEY FEATURES

- Integrates with negotiation and digitization partners across a common, shared, industry-wide workflow
- Standard adaptors to all downstream industry service providers
- Backloading of agreements via digitization, enabling validation of internal records and a simpler, more efficient dispute resolution process
- Provides full audit trail of negotiations, difference resolution and amendments
- Establishes automated cross-functional workflow enabling scalability

KEY BENEFITS

- Reduce financial exposure by expediting agreement capture, amendment and creation
- Unlocks legal and operational data to enhance front to back processes
- Reduces agreement driven disputes by resolving data representation differences and establishing golden records
- Sophisticated models that monitor Agreements to ensure they remain regulatory compliant
- Common source of data to feed all interested parties/systems
- Reduces operational risk by leveraging a standard and consolidated workflow
- Increased transparency and control
- Significantly reduces operational costs
- Source agnostic consolidation of Legal Agreement data
