

Sr Front End UI Developer

About Us

AcadiaSoft, Inc is a global industry leader committed to provide risk and collateral management services through a range of solutions for the non-cleared derivatives community. Trusted by over 650 firms exchanging approximately \$400B of daily collateral, AcadiaSoft is backed by 17 major industry participants and market infrastructures.

The AcadiaSoft Hub is home to a suite of applications and analytics, enabling and measuring the complete STP workflow. The non-cleared derivatives community use AcadiaSoft Hub for a host of functions from CSA agreement management, risk services, margin and collateral management right through to settlement, facilitating the meeting of regulatory requirements.

Headquartered in Norwell, MA with offices located in London, New York and Tokyo, AcadiaSoft's collaborative forward-thinking nature attracts some of the best world-wide talent in the FinTech industry to ensure a dynamic, team-focused culture.
